MIRAI Consulting Group

**MIRAI Consulting Group signs
MoU with BRAC, Bangladesh's Largest NGO
New Company "OPearl Co., Ltd." Established in Japan by MIRAI
~Accelerating Japan-Bangladesh Employment and Business Exchange~**

MIRAI Consulting Group (Headquarters: Chuo-Ku Tokyo; Co-Representatives: Mitsuo Kubo, Atsushi Okada) signed a Memorandum of Understanding (MoU) with BRAC (Location: Dhaka, Bangladesh; Representative: Asif Saleh), the largest NGO in Bangladesh, in April 2026.

Bangladesh is an emerging country with a large young population and significant growth, promising high economic development. Meanwhile, in Japan, actively utilizing foreign talent and expanding into emerging markets have become critical management challenges for many companies.

A new company, "OPearl Co., Ltd.," was established in May 2026 in Japan as a subsidiary of MIRAI Consulting Group. OPearl serves as the operational subsidiary responsible for executing the scope of the MoU between MIRAI Consulting Group and BRAC, providing comprehensive support for Japanese language education and employment assistance for Bangladeshis in Japan, as well as assisting Japanese companies in expanding into Bangladesh utilizing this talent pool.

Mirai Consulting Group, with its strengths in global talent development and business support, has assisted numerous companies in their overseas expansion. Through this initiative, we will expand opportunities for talented young Bangladeshis to thrive in Japan, while strongly backing Japanese companies in entering the local market and building partnerships.

Bangladesh is an emerging country with a large young population and significant growth, promising high economic development. Meanwhile, in Japan, actively utilizing foreign talent and expanding into emerging markets have become critical management challenges for many companies.

The new company, "OPearl," will integrate BRAC's strong local network with MIRAI Consulting Group's consulting expertise to offer multifaceted services, including practical Japanese language education and employment support for foreign talent, as well as overseas expansion support and business matching for Japanese companies. In addition, through a dispatch company planned to be established jointly with BRAC Probashbandhu Ltd (BPL), we will provide a "systematic employment platform" where foreign talent, including Bangladeshis, can work in Japan with peace of mind, thereby creating new growth opportunities for both businesses and talent.

Since our founding in 1987, Mirai Consulting Group has consistently supported the management of mid-sized and small-to-medium enterprises (SMEs). Our team of approximately 300 professionals, including Certified Public Accountants, Tax Accountants, and Certified Social Insurance and Labor Consultants, and experienced business planners, supports the healthy growth of companies not only in Japan but also in China and the ASEAN region. We are also committed to enhancing our value proposition in cutting-edge management themes, including digital/AI utilization, new business creation, overseas expansion, and the recruitment and retention of foreign talent (Global HR services). Furthermore, with our vision of "Co-Creation for Innovative MIRAI 2030" (From Competition to Co-Creation: An Innovative Future), we will continue to support the long-term development of SME companies.
